EDUCATION & PROFESSIONAL EXPERIENCES

Stanford University

Stanford, CA

PhD Student, Computer Science

Sep. 2015 – present

- Research Assistant with Stanford Natural Language Processing Group (Advisor: Chris Manning)

Master of Science, Computer Science

Sep. 2013 – Jun. 2015

- Research Assistant with Stanford Artificial Intelligence Laboratory (Advisor: Andrew Ng)

Master of Science, Department of Statistics

Apr. 2016 – Mar. 2017

Tsinghua University

Beijing, China

Research Assistant, State Key Laboratory of Intelligent

Jul. 2011 – Jun. 2013

Technology & Systems (Advisor: Xiaolin Hu)

Bachelor of Engineering (magna cum laude), School of Software Sep. 2008 – Jul. 2012

- [16] **Peng Qi**, Yuhao Zhang, and Christopher D. Manning. Stay Hungry, Stay Focused: Generating Informative and Specific Questions in Information-Seeking Conversations. ArXiv preprint 2004.14530, 2020.

HONORS

Facebook ParLAI Research Award, China’s National Scholarship (top 3% university-wide at Tsinghua), Freshman Scholarship (provincial top 10 in college entrance exam), and other merit-based awards from undergrad

EXPERIENCE

Stanford NLP Group Jan. 2018 – present
Explainable Multi-hop Question Answering in the Wild (work-in-progress)

- Extending our previous work published at EMNLP 2019 on a method that leverages off-the-shelf information retrieval methods for explainable multi-hop question answering in an open-domain setting
- Improving performance of end-to-end pipeline by finetuning it with sample-efficient reinforcement learning techniques

Facebook AI Research (New York) Jun. 2017 – Sep. 2017
Learning to Teach through Communication (Mentors: Jason Weston, Douwe Kiela, Kyunghyun Cho)

- Studied emergent teaching behavior of machine learning agents in a constrained

communication setting

- Proposed a reinforcement learning-based method for agents to learn to teach
- Implemented the proposed method in ParlAI with positive results on image classification tasks

Contributing Open Source Projects

StanfordNLP [↗](#) (documentation [↗](#))

- PyTorch implementation of Stanford's full system in the 2018 CoNLL Shared Task on Universal Dependency Parsing from Raw Text
- Includes neural network models for tokenization, part-of-speech tagging, lemmatization, and dependency parsing in 50+ languages with pretrained models available and intuitive Python interface
- Main contributor and maintainer

Universal Dependencies [↗](#)

- Maintainer of the Chinese-GSD treebank and its corresponding version in simplified Chinese
- Simplified the GSD treebank, fixed annotations and segmentation when necessary, engaged in community discussions about annotation standards

ParlAI [↗](#)

- Implemented various features to enable teacher training in ParlAI
- Bugfixes and stability improvements

Caffe [↗](#)

- Implemented a framework for generic solvers
- Implemented Nesterov's Accelerated Gradient solver and AdaGrad solver
- Contributed neuron layers (Leaky ReLU, Mean-variance normalization)
- Compatibility issues / bug fixes for Mac OS

Kaldi [↗](#)

- Contributed the first training recipe for the Fisher/Switchboard mixed speech corpus (the largest speech corpus in use in academia)
- A bug fix for Kaldi's speaker identification for better speaker heldout training

ConvolutionalRBM.m [↗](#) (Owner)

- An implementation of Honglak Lee *et al.*'s convolutional restricted Boltzmann machine model in Matlab, MEX (C++/CUDA)

HuggingFace Transformers [↗](#)

- Bugfixes in various standard example scripts for running BERT for question answering

TEACHING & MENTORING

- Invited speaker, LingCon [↗](#) (Fall 2017; gave a tutorial on "Deep Learning for NLP" to high-schoolers participating in a computational linguistics hackathon)
- TA, CS 224D Deep Learning for Natural Language Processing (Spring 2015)
- TA, CS 124 From Languages to Information (Winter 2015)
- TA, CS 145 Introduction to Databases (Summer 2014)
- TA, CS 224S Spoken Language Processing (Spring 2014)
- Project Mentor, CS 224n (Winter 2019, Best Custom Project Report Prize; Winter 2018, Best Custom Project Report Prize; Winter 2017)
- Tutor, CS 145 Introduction to Databases, CS 107 Computer Organization and Systems, CS 245 Database Systems Principles

REVIEWING

EMNLP-IJCNLP 2019 (Outstanding Reviewer), MRQA 2019, ACL 2019, NAACL-HLT 2019, EMNLP 2018 (Best Reviewer Award), ACL 2018, CoNLL Shared Task 2018, UDW 2018, ACL 2017, IEEE TNNLS, ICACI 2013
